Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>  
Regular updates will be posted as they are available.  
EPA Hotline: 844-607-9700 (toll-free)

Comments:

At the time the Gold King Incident occurred was the Red and Bonita Mine Barrier completed? Was the flow valve for the Red and Bonita barrier closed, partially open, or fully open at the time the Gold King Incident?

I'll add that EPA is being very slow to respond to the news cycles in the media. I appreciate you're busy trying to do actual work on monitoring and remediating this horrible accident, but you might want to get on top of this.  
Too much information is better than too little.
